FAMOUS QUOTES

In an attempt to get a point across in Forestry 451, Dr. Colletti once used this detailed explanation, "We're kind of doing the same thing, but opposite."

It's amazing what computers can accomplish these days. Why, one day Dr. Colletti told his class, "If you type in a 3, it'll probably send mail to the president."

Forestry 454 is a class which requires a lot of effort. One day in an attempt to get his class motivated, Dr. Countryman used a suitable quote, "You'll never know how much of a shadow you can cast until you get up off your knees."
